#### *SAYS CARRANZA* MEANS ANARCHY

Prominent Mexican Urges Pan-American Convention to Set Up Provisional Government.

Washington, Sept. 22.-A gloomy picture of what would happen in Mexico in the event of the recognition of Car ranga by the United States and other various Belgian cities to raise money for American republies is drawn in a statement issued to-night by Roque Gonzales Garza, one-time president of the conventon to forward the peace convention plan which the Villa and Zapata elements have accepted at the invitation of the Pan-American conferees.

Garza urges that the convention be held to set up a provisional government in Mexico in spite of Carranza's refusal to participate, and declares anarchy soon would follow recognition of Carranza. Describing at length the present military situation, he denies Carranza's claim to control the greater part of Mexican territory and expresses the belief that Carranza continues to delay to remove to Mexico City because of fear that such move would be followed by occupation of Vera Cruz by his enemies.

"People can be assured," says the state standpoint, the two contending factions as Carranza and if the war should contine the only result will be the weakness of other entirely.

"I cannot be much mistaken in saying that Mexico has now not less than 250,000 men fairly well supplied with ammunition. There are regions that have been com pletely devastated by the war, but on the maintain the struggle.

Commander Jonas H. Holden, U. S. N, who was a passenger on the ill fated Marowijne, has been given up as lost in born April 5, 1873, in Wallingford, Vermont; entered Annapolis in May, 1892, and was graduated in June, 1896. At the time of his death he was the senior line officer of his class in the naval service. with his son, Murlin, who was on his Upon graduation Naval Cadet Holden Lernard .- Mr. and Mrs. Sidney Atkins and | was destroyed in Havana harbor, and, reof supreme court which opens October 5. # **BELGIAN INDUSTRY** BY THE GERMANS

Brussels, Sept. 22.—The German administration in Beiglum has so far succeeded in reconstructing the financial system of the country that a number of the larger businesses, such as the big factories, coal mines and banks, which practically came to a standstill a year ago, have been able to resume opera-

The withdrawal of the directors of the National Bank of London in August, 1914, who took with them its gold stock and the plates for printing notes, left the country without a solid basis for fts currency system. Notes were in circulation, but there was no gold with which to redeem them; and there was danger that the circulation might be further expanded through new issues of the Belgian government in London, which could easily be smuggled into the country. Soon after the occupation of Belgian territory the German government deputized Dr. Von Lumm, one of the most efficient directors of the Reichsbank, to proceed to Belgium and take in charge the rehabilitation of the currency system. As the officials of the National bank had refused to return to Brussels or restore its assets, it became necessary to find a new way of securing the note circula-

At the same time the German authorities were levying war contributions upon meeting the expenses of governing the occupied territory-contributions which could not easily be raised in the form of cash. The cities were therefore asked to issue their certificates of indebtedness payable at some future time, and it was decided to use these as one form of security for new notes, besides bank balances abroad, German gold and other currency. As the National bank had refused to continue the further discharge of its functions the note-issuing power was conferred upon the Societe General de Belique, the oldest and largest banking company of the country.

#### A NEW WAR STUNT

Milan, via Paris, Sept. 22, 5:15 a. m .-A Vienna despatch to the Corriere Della Serra says; "On the national fete day (the anni-

versary of the occupation of Rome by Italian troops) Gabrielle D'Annunzio flew over Trent in an acroplane and dropped little bags made in the Italian colors and containing a message written by the poet in patriotic style telling the truth about military operations and exhorting the people of the city to await patiently the arrival of the army of freedom. The message was dated 'from the sky of the fatherland, September 20."

An Austrian official statement issued yesterday said:

"A hostile biplane threw upon Trent some very ingenious pamphlets by Licut. Gabrielle D'Annunzio."
